

LIFESTYLE CAMPER

CAMPER MODELS CATALOGUE

Lifestylecamper is a Ukrainian manufacturer of drop-shaped camper trailers. The company is developing rapidly, and today Ukrainian campers can be purchased in many countries. The main office and production are located in Kyiv.

Lifestylecamper trailers are recreation of the classic teardrop camper, refined for the needs of the modern traveler. We manufacture 2 main models of campers, X-Line and SteelDrop. Each of them has many configurations and can be fully adapted to any needs of the client. Thanks to this, the buyer can choose the appropriate degree of comfort himself, and supplement the model with additional accessories: from a shower, solar batteries and a heating system to various pleasant little things.

X-Line

Offroad

For the lovers of extreme tourism, hunters and fishermen. The special covering makes X-LINE immune to any weather conditions and external damage.

We use only eco-friendly materials. Line-X, trailer cover, has a European sanitary food certificate: this kind of material is also used to coat the inside of food containers. All this allows you not to have any chemical odors in your trailer.

If you usually camp on the mountain, in the forest depths, or in the canyons - X-LINE will be wonderful choice for your trip. Well suited for rough terrain, forests and mountains.

| weight | height | width | length | wheels |
|--------|--------|--------|--------|------------|
| 540 kg | 170 cm | 192 cm | 350 cm | 205\65 R15 |

X-Line

CHASSIS

We have developed changes to the design of the KNOTT independent suspension. These changes made it possible to change the suspension travel route from 7 cm to 16 cm. Our changes were accepted by KNOTT designers. At the moment, KNOTT producing an exclusive modified suspension for us.

WATER SUPPLY

We have the largest supply of water - 60 liters of a permanently installed tank at the lowest point of the trailer.

LINE-X COVERAGE

X-LINE model covered with a protective polyurethane composition that guarantees complete protection from leaks. The manufacturer of the coating – the company «LINE-X» - provides a lifetime guaranty that there won't be any mechanical damage on coverage.

Simple Drop

Casual

If you are tired of the tent and want to travel more comfortably - SIMPLEDROP is a good choice for outdoor or countryside trips. Compact and easy to use, it will be irreplaceable during a weekend in nature.

Well suited for rural terrain.

We are the shortest in our segment, which allows us to maneuver on any terrain and any road without restrictions, so the trailer goes track to track.

Our trailers have a low center of gravity. 40 degrees lateral roll trailer steadily holds, with a large margin. Such a lateral roll is not achieved by any standard SUV.

| weight | height | width | length | wheels |
|--------|--------|--------|--------|------------|
| 540 kg | 170 cm | 192 cm | 350 cm | 205\65 R15 |

CHASSIS AND TORSION

AL-KO torsion suspension (750kg) without overrun brakes and shock-absorbers, complete with straight drawbar and rolling support wheel, which is equipped with a brake-stopper

COMPOSITE COVERAGE

Plywood with high moisture resistance, with the outer sides of the body covered with composite panels, standard color of the panels: matte silver, but we can suit your preferences.

Steel Drop

Urban

For those who loves watching the sunrise over the ocean, having breakfast in a cozy cafe, and falling asleep while enjoying the sight of the starry sky - **STEELDROP** is a stylish and environmentally friendly camper. Well suited for traveling on roads and plains.

Lightness is the most important indicator for any trailer, especially on a long-distance travels. We pay a lot of attention to this feature and try to make our trailers as light as possible.

Light weight means lower fuel consumption and care for the environment.

| weight | height | width | length | wheels |
|--------|--------|--------|--------|------------|
| 500 kg | 170 cm | 195 cm | 350 cm | 185\65 R15 |

ECO MATERIALS

We use environmentally friendly materials in the construction of our campers. When building caravans, we use environmentally friendly materials: French plywood, the best M3 glue, water-based varnish and a certified coating used in the food industry. All this guarantees maximum comfort when traveling and allows you to have a complete absence of chemical odors in the trailer.

STAINLESS STEEL COVERAGE

Stainless steel coating of the Steel Drop model is protected from corrosion, rust and leakage. The stainless body of the original teardrop-shaped camper in combination with round wheels caps «babymoon» creates the atmosphere of retro campers of the 30s.

Steel

INTERIOR

Bed and cabin

- Orthopedic eco-friendly foam mattress size 2000x1400x100mm
- Webasto autonomous cabin heater with a capacity of 2 kW: fuel type is gasoline or diesel to choose, as an additional option, the presence of a digital electronic timer

Kitchen

- Stainless steel gas stove
- Electronic water level sensor
- Water heating option (up to +40°C) complete with Digital water level indicator.
- Finishing of a table-top with kitchen stainless steel
- Finishing the kitchen countertop with scratch-resistant plastic
- LED lighting for the kitchen area of the trailer complete with dimming function

Control panel

The two-panels centralized control system makes our campers easy to use. The salon panel equipped with light and heater controllers which you can use while lying in a bed. The kitchen panel helps to monitor the charge level of the camper, control the power supply of the trailer and control electrical appliances.

EXTERIOR

Chassis

- Alloy wheels with off-road rubber 215/75/R15(R16), (with KNOTT suspension)

Body

- Front cargo box with horizontal loading
- Manual outdoor shower with a flexible hose
- Roof mounting (aluminum railings) with a capacity of 200kg
- Our campers do not have a high entrance height, so we are suitable for people with disabilities

Window

- The front window is installed in the Premium trailer. The window increasing the amount of natural light from the outside.

WHY WE ARE THE BEST?

A EU standard guarantee and assist in technical support centers of our dealers.

Our campers are extremely profitable, because in terms of price-quality ratio, they have no equal

We always embed the leading innovations in design, creating for you an individual exterior and interior

You can use our campers with a category B driver's license and any car with a tow bar

Lifestyle Camper company is certified and maintains quality standards ISO 9001: 2015. This allows a constant monitoring of the quality of our products. Also Lifestyle Camper company has a Certificate of Conformity (COC). This means that our campers are available in the European market and can be registered in EU countries.
